Ride-hailing business process

Request → dispatch → trip → payment · D-05 / D-06 / D-11

Reading the diagram. Rounded boxes = actions; diamonds = decisions; ovals / terminal boxes = outcomes.
Dashed arrow = optional update. Cancellations occur before boarding; early termination after boarding is completed.
Course assumptions. Grace period ≈3 min; cancellation fee $1.50. Application enforces transitions, one detail per trip, completed-only ratings and charging policy. DB enforces PK / FK / UNIQUE and CHECK(amount ≥ 0, rating 1–5 or NULL).
Sample check. 1,442 completed trips have no Payment (≈2.9% of completed trips); Q2 / Q5 expose this subset.
